

RucSac RSV130

When it comes to congested environments there can be no doubt that the practical features of the RSV (Ruc-Sac Vac) brings with it great advances in convenience cleaning.

The RSV produces vastly improved results by virtue of the old adage "the right machine for the right job". In many countries Ruc-Sac cleaning has become commonplace with substantial improvements in cost effective operation.

- **User Comfort**

Convenience and safety with an ergonomically designed comfortable harness.

- **High Efficiency Filtration**

Extra large filter system and 3-stage HepaFlo disposable dust bags, ensuring continuous operation and clean and easy emptying.

- **Professional Accessory Kit**

Accessory kit incorporates all that is needed for quick and efficient cleaning of all surfaces.

- **A Class**

Energy efficient, A rated.
